

SS<sup>x</sup>

## Social Security VerificationX

Securely verify a consumer's Social Security Number

**Xactus has a direct connection to the Social Security Administration to ensure your applicant is who they say they are. Social Security VerificationX will:**

Provide accurate information about an applicant's identity and helps meet many required compliance requirements for identity verification

Directly verify through the Social Security Administration, ensuring accuracy and reducing the risk of identity theft

Allow you to submit requests on our website and within a LOS with either a physical or electronic signature

Enable the tracking of the request throughout the process

**Prevent fraud and identity theft by confirming the SSN provided by the consumer matches the information on record with the SSA.**
