

## The Industry-First Intelligent Verification Platform<sup>SM</sup>

Built by mortgage professionals for mortgage professionals, Xactus360 enables clients to make better mortgage decisions faster while increasing efficiency and reducing waste.

---

### Modernize Mortgage Processes

Enable teams with the right data at the right time to make faster, more informed decisions. As the modern mortgage becomes faster, smarter, and more efficient, Xactus' Intelligent Verification Platform puts the full power of the mortgage market's leading verification partner at your fingertips in a user-centric technology platform.

### Transform Origination and Servicing

With integrations into existing POS and LOS systems, Xactus360 is fundamentally transforming verifications with a new class of technology that strategically rethinks business processes and brings to life new capabilities, helping originators and servicers advance delivery of the modern mortgage.

### Embrace Dynamic Workflows

By combining data-at-scale, advanced artificial intelligence, and deep domain expertise, Xactus has built the intelligence clients need to flexibly meet the market's needs. Cascade relevant data, eliminate unnecessary pulls, and improve next-best actions, secure in the knowledge that mission-critical data is being dynamically delivered and updated.
